

Configuration:

Promeco KR shredders answer the more diverse customer needs, in terms of production capacity and materials to process.

The machines are offered in several configurations, differing in:

- Size
- Motor power
- Number of knives and counter-knives.

Application:

Promeco KR can shred various materials:

- MSW inorganic fraction
- RDF/RPF/SSF
- Plastic / rubber
- Packaging waste
- Light metals as aluminum profiles, cans, light iron scraps
- Textile scraps
- WEEE (waste electrical and electronic equipment)
- Industrial products
- Leather
- Paper and cardboard
- Wood waste
- Cables

PROMECO SHREDDER KR

SINGLE SHAFT SHREDDER / GRINDER

Features:

- Robustness
- Optimization of the cutting process
- Reliability
- Versatility
- Ease of maintenance

Models:

	from	to
Rotor lenght	1.000 mm	2.800 mm
Rotor diameter	440 mm	730 mm
Mechanical motor	45 kW	132 kW
Hydraulic motor	160 kW	250 kW
Grid holes	10 mm	100 mm
Production	1.000 kg/hour	12.000 kg/hour

Different size upon request
